About Us

Arowolo Group of Companies Limited, incorporated in 2010, is an indigenous and integrated service provider within the energy industry. We offer comprehensive solutions across the entire energy value chain, focusing on Engineering, Procurement, Construction, and Installation (EPCI) services, as well as Gas solutions-(CNG) and importance, retail and bulk distribution of petroleum products.

With a vast network of Original Equipment Manufacturers (OEMs), our technical expertise and highly skilled workforce, we deliver optimal bespoke solutions to our customers and stakeholder. Our operations are driven by well structured processes, adherence to global best practices, and a customer-centric approach.

We pride ourselves in our ability to align our business priorities to the economic and environmental needs of our clients, industry regulatory guidelines and continual process improvement.

We are committed to building sustainable, quality business relationships with clients and stakeholder through effective partnership and effective service delivery, thereby optimizing and adding values to client operations.

Beyond our core business, Arowolo Group is deeply committed to development of host communities and stakeholders through our charitable foundation, Arowolo Royal Foundation (ARF). The foundation actively supports host communities with sustained, comprehensive interventions and infrastructure development projects, and this has continued to promote mutual cooperation and foster lasting growth, amongst others

VISION, MISSION, CORE VALUES

VISION:

To be the provider of world class products that are tailored for the satisfaction of all stake holders.

MISSION

Through defined processes, committed nd purpose driven staff, we edge-up our competitors by capitalizing on our uninterrupted and consistent supply of quality products, with best prices.

CORE VALUES

Excellence, Audacity, Grit, Professionalism, Passion, Innovation

OUR SERVICES

1. Drilling, Marine & Gas Equipment Supply
2. Energy Trading – CNG and Petroleum Products
3. Onshore and Offshore Pipeline Services
4. Construction, Fabrication & Installations
5. Well Intervention & Completion Services
6. Waste Management & Environmental Remediation
7. Marine Logistics Services
8. Downstream Oil Services

1. DRILLING, MARINE & GAS EQUIPMENT SUPPLY

We have a global footprint and right OEM network to procure and supply these equipments to the different sectors; Oil & , Refineries, Petrochemical, Power Generation, Marine, etc.

Drilling Equipments: OCTG, Drillbits accessories, coiled tubings,Seamless Line Pipes.Gas Equipment: CNG skids, PRMS, CNG trucks, gas compressors, gas meters.

Rotating Machineries; Pumps, Compressors, gas turbines Process equipment: Valves, heat exchangers, vessels & filters, piping fabrication Heavy plant machinery & vehicles: heavy load plant, construction and excavation equipment.

Industrial Oil and chemicals: grease, machine fluids, corrosion prevention oil, additives, coolant oil.Instrumentation: flow meters, pressure gauges & averaging sensors , recording tools

2. ENERGY TRADING - CNG AND PETROLEUM PRODUCTS

We have a global footprint and right OEM network to procure and supply these equipments to the different sectors; Oil & , Refineries, Petrochemical, Power Generation, Marine, etc.

Drilling Equipments: OCTG, Drillbits accessories, coiled tubings,Seamless Line Pipes.Gas Equipment: CNG skids, PRMS, CNG trucks, gas compressors, gas meters.

Rotating Machineries; Pumps, Compressors, gas turbines Process equipment: Valves, heat exchangers, vessels & filters, piping fabrication Heavy plant machinery & vehicles: heavy load plant, construction and excavation equipment.

Industrial Oil and chemicals: grease, machine fluids, corrosion prevention oil, additives, coolant oil.Instrumentation: flow meters, pressure gauges & averaging sensors , recording tools,

Our CNG StationIn alignment with global initiatives for sustainability and the reduction of reliance on fossil fuels, Arowolo Group has recently expanded its energy portfolio to include Compressed Natural Gas (CNG). This strategic move underscores our commitment to providing environmentally friendly energy solutions while meeting the growing demand for sustainable energy sources.Our state-of-the-art CNG daughter stations are currently 60% complete and will soon be operational, serving CNG-powered automobiles.

3. ONSHORE AND OFFSHORE PIPELINE SERVICES

For several years, Arowolo Group have joined with industry partners to deliver innovative solutions across the pipeline system lifecycle for onshore and offshore locations. Through our products and our services, we maximize uptime, improve through output, avoid shut down and minimize risk, helping ensure energy is delivered safely.

We ensure that the pipeline infrastructure continues to operate safely, whether it's carrying oil, gas or new energy sources such as hydrogen.

Some of our solutions include: Pipeline Integrity, Integrity test & maintenance, pipeline pigging, cathodic protection

4. CONSTRUCTION, FABRICATION & INSTALLATIONS

Arowolo Group has been able to deliver superior value by employing innovative construction and installation procedures and methodologies.

Safety & Quality are our priority and we passionately care about the safety of our people and the environment.

We provide various types of end to end construction and installation services (design, construct, operate, and maintain).

Our bespoke offering allows us to complete all projects in accordance with the client's requirements whilst maintaining our standards of cost effective ideas and utilization of high quality resources.

5. WELL INTERVENTION AND COMPLETION SERVICES

We provide services support crucial for maximizing oil and gas recovery, maintaining well integrity, and ensuring safe and efficient operations of our clients assets;

We provide; well head servicessand controlwell overhauling, stimulation, coiled tubing/nitrogen services.

6. WASTE MANAGEMENT AND ENVIRONMENTAL REMEDIATION

Arowolo Group is active in the fields of hazardous and non-hazardous waste management. We offer a full spectrum of services such as Characterization, Minimization, Collection, Separation, Treatment, Recycling and final Disposal of waste. Our trained personal possess requisite experience and know-how with our scientific methods and the use of latest technology and modern equipment guarantee high-end waste management services.

Services

- Oil spill response
- Sea surface cleaning
- Non-hazardous waste management
- Hazardous waste management
- Recycling and recovery
- Shore cleaning and remediation services
- Cleaning and disinfection services

7. MARINE LOGISTICS SERVICES

Arowolo Group together with our partners, operates and maintain offshore support vessels that are providing support services in oil and gas projects for hookup, upgrade, modification and SCADA and also for installation and commissioning of offshore wellheads for tie-in

Offshore Marine Support

We have several vessels in our possession together with our partners including:

- **Jack up barge**
- **Crew boat**
- **VSP mooring boat**
- **Supply vessel**
- **FSIV**
- **Work boat**

Procurement Services

Our dedicated marine construction, procurement team procide cost effective and efficient solutions to;

- **Logistics Trucks and warehouses**
- **Implementing best practices for cost containment**
- **Operating within a strict code of ethics**
- **Ensuring procurement compliance.**

Hook-up and commissioning

We have expertise in the following areas:

- **Marine Logistics**
- **Offshore hook-up and commissioning**
- **Topside maintenance**
- **Offshore wellhead tie-ins**
- **Supply of offshore equipment**

8. DOWNSTREAM OIL SERVICES

Arowolo Group provides integrated downstream oil and gas solutions designed to support the efficient storage, transportation, distribution, and retail delivery of petroleum products across the value chain. Through our technical expertise, strategic partnerships, and commitment to operational excellence, we provide safe, reliable, and cost-effective services that optimize product availability and ensure seamless supply chain operations.

We deliver end-to-end downstream services tailored to meet the operational requirements of clients while adhering strictly to industry regulations, safety standards, and environmental sustainability practices.

DOWNSTREAM SERVICES

- **Petroleum Products Supply and Distribution**
- **Bulk Trading of AGO, PMS, DPK, LPG and ATK**
- **Depot Operations and Management**
- **Petroleum Storage Facility Development and Operations**
- **Retail Filling Station Development and Management**
- **Fuel Haulage and Transportation Services**
- **Supply Chain and Product Logistics Management**
- **Lubricants and Industrial Chemical Supply**
- **LPG and CNG Infrastructure Solutions**
- **Fuel Quality Assurance and Product Testing Services**
- **Procurement and Distribution of Downstream Equipment**
- **Asset Integrity and Maintenance Service**

HEALTH, SAFETY AND ENVIRONMENT

Through our Commitment to safety, health and environmental excellence, we affirm to all our stakeholders, including our employees, customers, shareholders, and the public, that we will work collaboratively to bring sustainable, market-driven and innovative solutions to solve some of the world's biggest challenges, making lives better, safer, and healthier for people everywhere.

We will implement those strategies that build successful businesses and achieve the greatest benefit for all our stakeholders with respect and care for the environment without compromising the ability of future generations to meet their needs.

We will continuously improve our practices in light of advances in technology and new understandings in safety, health and environmental science. We will make consistent, measurable progress in implementing this Commitment throughout our nationwide operations and support Responsible Care as a key program to achieve this Commitment.
